

# Annual Public Bank Profit = Public Benefits

## The Five-Year Model for a Public Bank for Santa Fe

The public Bank refinances some of the City's existing \$300M+ bond debt or new public projects at 4% interest and helps community partners make loans for affordable housing, small businesses, and alternative energy.

Lending starts at \$50M in year one and increases to \$90M by year five (and continues to increase in future years).

How would you like the City's share of Public Bank profits to be used to benefit our Community?
